

D&B Direct KickStart – Monitoring

Learn how to Implement D&B Direct Monitor for Informatica MDM

A project-focused, interactive workshop designed to prepare client resources tasked with implementation of D&B Direct Data Enrichment for Informatica MDM

Learn from Experts

Customized for specific client requirements

Two Half-Day Sessions

Virtual, On-line Delivery to Keep Costs Low

Fixed Price

D&B Direct KickStart Monitoring

Specifically designed for organizations looking to utilize internal resources for implementation of their MDM data enrichment solutions, D&B Direct KickStart Monitoring is an interactive workshop led by expert MDM Architects that provides guidance on how to deploy and configure the D&B Direct Monitor for Informatica MDM, along with insights and best practices for configuring Informatica MDM to accept and consume the new data provided by D&B as part of the enrichment process. This will accelerate development timelines, optimize design, and minimize errors.

Designed to be cost-effective and minimally disruptive, KickStart is available as a virtual workshop delivered online over two days at a fixed price, keeping costs low and maximizing resource utilization.

Workshop Objectives

To prepare a customer for the best possible implementation of their D&B Direct for Informatica MDM solution:

- Speedy implementation
- Reduced errors during design or development
- Performant
- Easy to maintain and enhance
- lower cost
- consistent with MDM and D&B best practices

Key Discussions

- **Exploration of Client Project**
Open discussion about the client's project and the desired outcome
- **D&B Data Enrichment Solution Details**
A deep dive into how it works
- **Implementation activities**
High-level review of typical project implementation activities:

- **Implementation details**
Discussing what is required during implementation and what to expect
- **Installation & Setup of D&B Direct Monitor**
Walkthrough of installation process & Testing for success of installation
- **Configuration of the Monitor including References, Users & Notifications, and how to best to process changes into your MDM**
- **Support:**
Engaging with Globalsoft support

Why Globalsoft

Besides being the developer of D&B Direct Connector and Monitor, Globalsoft has also been a close partner of Informatica carrying out over 60 MDM projects since 2006. With such an extensive experience and knowledge base it has become one of the most trusted service partners to implement data enrichment solutions by D&B. Globalsoft's comprehensive understanding of D&B Data and Informatica MDM allows for faster delivery and better usage of information as well as software.

Globalsoft has chosen to expand their MDM practice to focus on high performance data enrichment services that requires core understanding of not only Informatica MDM and D&B Direct API and its individual components, but also an in-depth knowledge of data governing policies, security, data quality, and privacy to ensure our clients' data is accurate, accessible, consistent and protected.

Solution Requirements

- Globalsoft Connector for D&B Direct for Informatica MDM
- Informatica MDM – ver. 10.2 and above
- JBoss or WebLogic
- Access to SOAP UI
- D&B Direct subscription

Complementary Products & Services

- **D&B Direct KickStart – M&E**
Interactive Workshop to learn how best to implement the Data Enrichment for Informatica MDM using Globalsoft's D&B Direct Connectors, including installation & Configuration of the Application as well as its components.
